

8 Powerful Steps to Your Vision and Purpose and Your “True Nature”

These 8 steps are about freeing the major energy centres of the human body as understood by ancient cultures including Celtic, indigenous, Indian, Egyptian, Japanese and Chinese. It is a model to understand your Body's Energy systems and where energy may be restricted or dis-eased.

For more freedom in your life, and a Clear sense of Vision and Purpose, practice these steps

1. Ground - build strong foundations, maintain gratitude & awareness of your Earth connection.
2. Free your creativity. Ease your dis-eases (including with sex) and free the "Chi" energy flow
3. Express your creativity and unique special gifts with high intent, power and passion
4. Forgive from your heart, and open your heart to receive – We reap what we sow
5. Speak, Express and Live your truth - resonate (voice) your truth with passion
6. Clarify your grander vision - expand your awareness of self, be discerning.
7. Honour yourself and have faith in your truth, integrity and Spirit
